SETUP

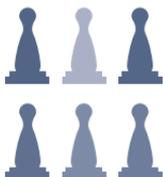

- Each player or team chooses a game piece and places it in the starting space.
- Shuffle the cards and place them in the card box. Place the box so the **DRAW** end is visible. Always draw from the **DRAW** end and place the used cards at the opposite end.
- Players roll the die. The player with the highest roll will be the first Reader.

200 Blurt! Cards
(1,200 clues—2 playing levels)
Blue = Easy | Red = Hard

HOW TO PLAY

1

The Reader rolls the die. The number and color rolled determines which clue to read aloud. Feel free to play with just easy cards for younger kids.

2

Players blurt out the word they think the clue defines. Players may blurt multiple times. There is no penalty for wrong answers.

3

The first player or team to blurt correctly moves ahead on the game board—the number you rolled on the die is the number of spaces you move.

4

Pass the card box clockwise to the next player or team, who will become the new Reader.

5

WINNER! The first player or team to reach the finish line wins the game!

Who decides who blurted first?

In individual play, the Reader judges who answered correctly first. In team play, the Reader's teammates DO NOT answer, but help the Reader decide who blurted correctly first.

What if it's a tie?

If two players or teams answered at the same time, another clue is read ONLY to those who tied. The Reader or the Reader and teammates judge the winner.

"That's not fair!"

When in doubt as to who was the first to blurt the correct word, read another clue!

"We give up!"

If no one answers correctly, the card box is passed clockwise to a new Reader who rolls the die and reads a new clue.

Keep the fun (and learning) going with these great games!
